Department of Biology

Plan of lectures
for students of 1 st year 1 st semester 2026/2027
Subject “Medical biology and general genetics”

Day of week	Date	Time	Topic	Lecturer
Friday	11.09.26	**08:00-09:25**	Characteristics of genetic material.	Potenko V.V.
	25.09.26		Gene expression and repression in pro- and eukaryotes.	
	09.10.26		Chromosome and genome level of hereditary material organization. Gene linkage.	
	23.10.26		Diversity of organisms. /Bases of human genetics. Human hereditary diseases.	

Room: Round Tower, No. 4 nd building,
Kosmonavtov Prospekt, 70

Head of the Department,
Candidate of Veterinary Sciences,
Associate Professor R.N. Protasovitskay
