THEMATIC PLAN
of lessons on propedeutics of internal diseases in English for students of III course in a autumn semester of 2026-2027

№ п/п	Topic	dates
1.	Subjective and objective methods of examination of patients with diseases of respiratory organs. Inquiry. Thorax survey.	07.09.26-12.09.26
2.	Objective methods of examination of patients with diseases of respiratory organs – palpation and percussion.	14.09.26-19.09.26
3.	Objective methods of examination of patients with diseases of respiratory organs – auscultation of lungs. Laboratory and instrumental methods of examination of patients with diseases of respiratory organs.	21.09.26-26.09.26
4.	The basic clinical syndromes at diseases of respiratory organs. Examination of patients with diseases of respiratory organs.	28.09.26-04.10.26
5.	Colloquium: «Examination of patients with diseases of respiratory system. The basic clinical syndromes at diseases of respiratory organs».	05.10.26-10.10.26
6	Subjective and objective methods of examination of patients with diseases of cardiovascular system (inquiry of patient, general survey, local survey of heart area).	12.10.26-17.10.26
7.	Objective methods of examination of patients with diseases of cardiovascular system – palpation and percussion of heart.	19.10.26-25.10.26
8.	Objective methods of examination of patients with diseases of cardiovascular system – auscultation of heart.	26.10.26-31.10.26
9.	Objective methods of examination of patients with diseases of cardiovascular system – auscultation of heart (heart murmurs). Laboratory and instrumental methods of examination of patients with diseases of cardiovascular system.	02.11.26-07.11.26
10.	Clinical and electrocardiographic signs of hypertrophy of atriums and ventricles, ischemic heart disease.	09.11.26-14.11.26
11.	Clinical and electrocardiogram signs of heart arrhythmias (bradycardia, tachycardia, sinus arrhythmia, extrasystoles, fibrillation and flutter, paroxysmal tachycardias).	16.11.26-21.11.26
12.	Clinical and electrocardiogram signs of heart arrhythmias (sinuatrial blocks, atrial blocks, atrioventricular blocks).	23.11.26-28.11.26
13.	The basic clinical syndromes at diseases of cardiovascular system. Laboratory and instrumental methods of examination (part 1)	30.11.26-05.12.26
14.	The basic clinical syndromes at diseases of cardiovascular system. Laboratory and instrumental methods of examination (part 2)	07.12.26-12.12.26
15.	Colloquium: «Examination of patients with diseases of cardiovascular system. The basic clinical syndromes at diseases of cardiovascular system».	14.12.26-19.12.26
16.	Subjective and objective methods of examination of patients with diseases of esophagus, stomach and intestines.	21.12.26-26.12.26
17.	Basic clinical syndromes at diseases of esophagus, stomach and intestines.	28.12.26-02.01.27
18.	Subjective and objective methods of examination of patients with diseases of the hepatobiliary system. Basic clinical syndromes at diseases of the hepatobiliary system.	04.01.27-09.01.27

The head of the department **A L Kalinin**
